

## Quality and Environmental Policy

Harvey Roofing Products is a manufacturer of coated lightweight metal roof tiles, accessories and associated products. In all our products, we are striving to be the preferred global supplier of coated lightweight metal tiles and accessories.

Harvey Roofing Products Top Management is committed to:

- Ensuring that our products and services meet the intended purpose and customer satisfaction by providing consistent high level of quality.
- Conducting business in an environmentally responsible manner with the knowledge that our operation may have potential impact on the environment.
- Continuously improve our management system and performance through the maintenance of the ISO9001 and ISO14001 certification.
- Comply with the customer, statutory and regulatory requirements.

Objectives and targets will be achieved within the following framework:

- Continuously come up with innovative ideas to improve our processes, services and products in support of the organisation's strategic direction.
- Allocating suitable and sufficient resources which enable the organisation to meet its intended results.
- Providing appropriate staff training for continued competence and development.
- Introduce and implement risk-based thinking and process approach across the organisation.
- Commitment to the improving environmental protection and employing sound pollution prevention practices.

Harvey Roofing Policy shall be:

- Communicated, understood and applied within the organisation by all employees, contractors and visitors to our site.
- Made available to interested parties upon request or as appropriate.
- Available and maintained as documented information.

Harvey Roofing Products management team will review the policy and objectives annually at a formal senior management review.

Signed on this date 03 December 2018 on behalf of the management team of Harvey Roofing Products

Frikkie Erasmus
